

Activism is Happening and will Increase in Hong Kong – Learn from Applied Case Studies by International Experts

In this seminar, leading international experts will discuss activism with global case studies, including by a speaker, who was the former company secretary of BHP attacked by social and investors activists. Another speaker, formerly from BlackRock, will cover investor expectations, to provide you with an all-round perspective of:

- The real risk of activism
- The advice that the company secretary should provide the board for risk mitigation
- The expectations of the investment community
- How to build trust to reduce activism in the first place
